List of Draft Standard Updates for Road Testing

WRI and WBCSD made a few edits and updates to both standards based on feedback received during the five stakeholder workshops and from written comments. Here are summaries of the edits made since the release of the drafts in November 2009:

Product Standard- Summary of Edits:

- The definition of an intermediate product has been updated (Section 6.3.3.)
- The definitions of data types have been updated (Section 7, Box 7.1)
- An additional requirement has been added in regards to reporting results in the detailed report (Section 12.1.2)
- Additional clarity has been added to the reporting of data quality in the summary and detailed reports (Table 12-1, Section 12.1.2)
- Guidance has been added on reporting reductions - not complete (Section 12.3)
- The Appendix on calculating land use impacts has been updated (Appendix B)

Scope 3 Standard- Summary of Edits:

- Refined the language on intermediate products and final products in Part 2, Section 14 - Use of Sold Products
- Refined the language on the boundary requirement to clarify that the 80% threshold does not apply to Category 1 (Direct Supplier Emissions) or Category 14 (Use of Sold Products)
- Refined the data terms (primary data, secondary data, extrapolated data, proxy data) to be consistent with the Product Standard
- Minor edits to Table 4.1: Categorization of Scope 3 Emissions
- Added the section on "Determining relevant emissions" for Part 2, Section 2 - Purchased Goods and Services – Cradle-to-Gate Emissions
- Minor edits to Table 14.1: Emissions from Use of Sold Products: Reporting Requirements by Product Type
- Edits to the following terms in the glossary: activity data, intermediate product, final product, primary data, secondary data, extrapolated data, proxy data
